

**The most complete portfolio of high capability bolting and critical fastening solutions for the automotive & appliance industries**

AcraDyne's nutrunners are designed for ultimate operator safety, with multiple handle configuration options for optimal tool handling

The AcraDyne line increases productivity while also providing optimal monitoring and control with a built-in integral transducer

During these uncertain times, shipments may be delayed, halting projects and costing thousands. Because we are Made in the USA, we are available and ready to meet your needs

## 1000 Series Tubenut Nutrunner

3 – 30 Nm

- Superior size, speed, and duty cycle compared to competitors' tools
- Durable Nylon motor and handle housing
- Onboard lights and audible signal for operator feedback
- Durable tubenut head design
- Simple, one-touch back to open operation for maximum productivity
- Innovative Sensor Technology: Transducer senses resistance in the initial 90 degrees of rotation and returns to open upon resistance encountered

## 2000 Series Tubenut Nutrunner

3 – 55 Nm

- Robust design is lighter, slimmer, and more ergonomic than previous Gen III nutrunners
- One of the lowest total cost of ownership in the industry
- Ergonomic trigger design integrates trigger to tool body, requiring a shorter activation stroke
- Indexable head optimizes trigger position
- Smooth-grip handle
- Short length means easier tool positioning
- Backward compatible with all Gen III and Gen IV AcraDyne controllers

**Proudly Made in the USA, AcraDyne's DC Controlled Coded Tools and Controllers offer one of the Widest Torque Ranges in the World – from 1 to 17,000 Nm**
